WORK EXPERIENCE

Employer: Takealot.com. Cape Town, SA

Info: South Africa's Leading Online Store.

Job Title: Intermediate Android Developer

Tech: Android, Kotlin, Java

Period: **September 2021–Present**

Duties: As an Intermediate Android Developer, I am responsible for engineering/developing, maintaining, and improving Takealot.com shop front Android Mobile application.

Employer: Flat Circle (PYT) Ltd. Cape Town, SA

Info: Cape Town mobile development agency

Job Title: Junior Android Developer

Tech: Android, Kotlin, Java, Flutter, Dart

Period: **February 2018–August 2021**

Duties: As a Junior Mobile Developer, I was responsible for engineering/developing and maintaining Mobile development projects for Flat Circle (PYT) Ltd., its clients and business associates and researching new technologies applicable to the company line of work.

Notable apps delivered:

- Times Select: provides subscribers with daily curated editions of opinion pieces, local and world news.
- TimesLIVE: TimesLIVE is South Africa's second-biggest news website and Sunday Times is SA's biggest Sunday paper. This app combines both these publications for convenient reading on your phone and tablet.

- Lettuce: Lettuce is a mobile application that takes the hassle out managing your investments, by seeing everything you own in one place.
- SowetanLive: The SowetanLIVE app delivers the hottest local news, business, opinion, sport, entertainment and much more.
- Vrye Weekblad: Provides subscribers with daily curated editions of opinions pieces, local and world news in Afrikaans.
- Blueair: Blueair is a Swedish producer of award-winning, smart air purifiers and air quality sensors, available in over 60 countries. This app remotely controls your connected purifiers and informs you, in real time, about indoor and outdoor air quality.
- Mazadak: a digital auction platform in Saudi Arabia.

PERSONAL PROJECTS

In my spare time, I like building pet projects and writing blogs. Notable personal projects and blogs:

- Cineast Android: it can be found on the playstore https://play.google.com/store/apps/details?id=elieomatuku.cineast_android and GitHub https://github.com/ElieO97/cineast_android
- Starwars Flutter: https://github.com/ElieO97/starwars_flutter
- An article on the Composite Pattern using Android and Kotlin: <https://medium.com/@elieomatuku/composite-pattern-in-kotlin-android-example-f895d9f5c953>
- Using Jetpack Compose in an existing Android Application: <https://medium.com/@elieomatuku/using-jetpack-compose-in-an-existing-android-application-36df3f38d3dc>
